BOOM LENGTH SENSOR

BOOM LENGTH SENSOR SL-100

Construction of Boom Length Sensor SL-100 consist of Recoiled Cable Drum joined With the Potentiometer and using 3 mm boom metering cable incorporating boom Length sensor. This sensor is housed in a robust steel housing suited for rough Application.

SPECIFICATION:

sensor Endless Geared Variable
Max Boom Length = 50 Meters
Length Resolving = 0.1 Meters

Steel Body
Anti Two Block Switch.
Size 400 X 220 mm
Weight 20Kg

BOOM LENGTH SENSOR

JAPANESE TECHNOLOGY MADE IN PAKISTAN

DEALS IN : ALL KINDS OF ELECTRONIC APPLICATIONS AND COMPUTERS
